

# BUILD HER UP LEADERSHIP BOOTCAMP

Modern leadership can be challenging for everyone, but women face unique obstacles as they climb. With fewer role models at the top, many women struggle with confidence, inclusion and feeling like they have a voice. Despite these challenges, the fact remains that women are natural leaders and equally suited and qualified to impact strong and productive business cultures.

This 3-part workshop series starts with a DiSC based leadership assessment and builds you up through awareness of self, assessment of skill and mindset, and helps you create a progressive strategy to increase credibility and influence.

3/90 minute modules via Zoom or 1 half day workshop Onsite

presented by:  
**ANGELA HIGHLAND, CIT, CPC**  
Executive Coach  
19 years in Commercial Construction  
from the field to the boardroom.
